WORK EXPERIENCE

Autodidacte.io

September 2017 — Present

Student

- Learn the basics of programming with the C language
- After 3-4 month I learned Python, witch i stick with it from mid-2018 to late-2019
- Late 2018 I learned Web language like HTML/CSS/Js but only for 3 months
- From november 2019 to now, I'm doing PHP dayly and lovin it !

Capte.io

January 2020 — August 2020

Developer

Create the jeplanteunarbre.com website for the school professional project.
I made it with a colleague from scrath with html js php and mysql

QUALIFICATIONS

I'm pretty confident about my level because i always learn when i like to code, so the more I code, the more I know.

Here is the list of the main techs and languages I use

- POO/PHP/MSQL
- HTML/CSS/JS
- Python
- Linux | Shell
- VScode / Notepad / Vim
- Bootstrap

EDUCATION

Dev Full-Stack

September 2019 — September 2021

LaPlateforme_

I improved my coding skill in web languages as php and js there.

It is a good source of knowledge even if I learn a lot more with StackOverflow ^^

LANGUAGES

- English -- Can understand and talk well -- I write as bad in english as in french
- French -- Mother tongue

INTERESTS

- Coding
- Videos (Making some. looking a lot)
- Gaming
- What I call Light-philosophy : I don't read books but i like to think about almost everything so let's debate !
